## INSTRUCTIONS FOR POSTING BEVERAGE CARTONS TO THE RECYCLING MILL

- . Please note that this is not a freepost service as we are currently channelling all the funds we can into developing convenient carton recycling for everyone in the UK.
- . All beverage cartons containing milk, juice, soups, custards, sauces etc can be included
- . Cartons must be rinsed out after use and drained
- . Cartons must be flattened by pulling out the ears
- . Plastic opening devices can be cut off to flat pack the cartons
- . Pack the flattened cartons into any cardboard box
- . Apply label and take to Post Office for despatch
- . Paper cups can be included but not other paper apart from the box
- . Avoid other packaging such as plastic or jiffy bags
- . Parcel tape or string to seal the box is acceptable

The logo on the label acts as an identifier for the paper mill to ensure that the collected cartons go into the right pulper without opening the box.
